

Unlocked: The Love Tile

The Crazy Pattern Game™

Claim:

I believe I have proven that love exists.

Also known as energy in motion, love appears to be real.

There is a pattern – one that seems to map reality itself.

$1 + 1 = 2$

I believe I may have discovered what “equals” truly means.

Notice: it’s two parallel lines – perfectly balanced upon equilibrium –

a quiet, visible bridge between one and another,

the instant where potential becomes connection,

and connection becomes our shared reality.

“Love unlocked – equilibrium achieved.”

When in doubt, always say yes to love
