

## Unlocked: The Legend of HAVEN

Legend has it that the story began the day Haven realized something impossible:

That what she believed to be true might also be its exact opposite – and somehow, both could be real at the same time.

No one knows why this moment mattered. Only that it split her world open and left a trail of clues she couldn't ignore.

The earliest record places the beginning on July 6<sup>th</sup> in Avalon, New Jersey – a quiet shore town where ordinary days sometimes hide extraordinary openings.

Some say Haven discovered something scientific. Some say she discovered something spiritual. Some say she discovered herself.

All we know – all we can say- is that the discovery is still being examined, still being questioned, still waiting for validation in the full light of day.

But there is one part of the legend that everyone agrees on:

Whatever Haven found, whatever pattern unfolded, whatever truth revealed itself beneath all the impossible pieces....

It led her, unmistakably, to the simplest conclusion of all:

Love is real.

And that – more than anything else – may turn out to be the most important discovery in Haven's entire story.

When in doubt, always say yes to love
